

PRESTIGE AND SIMPLICITY COME TOGETHER

Located in the Mont-Blanc region of Haute-Savoie, the village of Megève owes its name to its location between two rivers, derived from the Celtic words Mag (house) and Eva (water).

Megève immediately impresses visitors with its calm and timeless authenticity. A bewitching charm bathes the narrow streets that lead to the village square and the church steeple with its green bronze domes. A profusion of little shops and wooden facades conveys a warm conviviality.

Megève has preserved its classic Savoyard architectural heritage favouring the unique style of the traditional mountain village. You only need to open your door onto the village to discover its diversity and to fall under its spell.

Generally snow-covered and offering an exceptional panorama of the Alpine massif (Mont-Blanc, the Chamonix Aiguilles, the Warrens chain, the Aravis chain and Mont Charvin), the 1483-acre site can be enjoyed by visitors on skis, snowmobile, sledge or snow shoes. Or they may just admire the huskies or the polo players... or simply contemplate the snow-covered mountains from a table on one of the many terraces, like the one of l'Alpage.

Megève has something to offer in each of the four seasons. The majestic winter gives way to a wealth of discoveries in the summer, another chance to experience many memorable moments.

In summer, one Megève event follows the next... Exploring 150 km of marked walking trails, springs and rivers, cultural treasures, little scenes of paradise with moss, waterfalls and white water, the freshness of mellow undergrowth and fragrant spruce forests.

Cloaked in orange and gold, the village of Megève puts on a brilliant show in autumn, with an incomparable atmosphere of sport and leisure. Take advantage of hiking, biking and horse-back riding in this amazing setting where nature shines as if on stage. Fall in Megève is when this authentic village shows its heritage and traditions, encouraging each visitor to find their own adventure. Megève in autumn is truly a magnificent way to welcome fall.

There's no need to look any further for the perfect escape: think, dream and breathe Megève and you could become a convert for life.

MEGÈVE

MORE THAN A HOTEL, A DESTINATION...

In 1989, **Les Fermes de Marie** began paving the way for a new genre of hotel management, and a style that has since then become a standard throughout the world. With its strong link to traditional housing, this completely new concept offers travellers the chance to enjoy a particular mountain lifestyle, all year round, and to spend a holiday in a high quality, comfortable, family-oriented setting.

The hotel is laid out as a small hamlet of high mountain pasture farms several centuries old, lying in a 4-acre park in the heart of Megève. The nine interlinked chalets form a haven. Each of the farms was dismantled, every piece of wood was numbered, and then reassembled on concrete frames in line with the heritage and the traditions of the area.

In this timeless retreat away from it all, the charm of the decoration is only equalled by the soul of every

piece of furniture and the patina of every object. The comfort of the 70 highly individual rooms and suites is based on traditional simplicity and subtle refinement, but incorporates modern life as well. The warmth of the old wood is matched by that of an attentive and ever-personal staff.

The impeccable quality and range of services on offer mark **the personality of a hotel like no other**. Here the notion of service takes on its full meaning. **Elegant and comfortable**, the bar is extremely

THE HOTEL

cosy, with its deep armchairs and huge sofas covered in leather and Bonneval fabric. Warm materials and muted grey and tobacco shades all blend admirably with the atmosphere and colours that give the place its character. Combining harmony and calm, this space offers a special menu for those who work up a little appetite in the afternoon. It guarantees all the pleasures of a restaurant, even between meals.

Le Restaurant Traditionnel, located in the heart of the main chalet, proposes fresh cuisine for every season, with locally sourced ingredients, and an authentic and refined menu, with dishes such as roasted free-range chicken with black truffle cream sauce and Beaufort cheese gratin, Féra fish from nearby alpine lakes grilled with fresh-churned butter, or the iconic dish of Les Fermes de Marie Coquillettes with truffle shavings and Sauget ham... not to mention the extraordinary dessert buffet!

Le Restaurant Alpin invites guests to enjoy an experience of the real Savoyard folklore, far from the usual clichés to discover the «Camotzet», to the sound the traditional «limonaire» organ, finding all the charms of

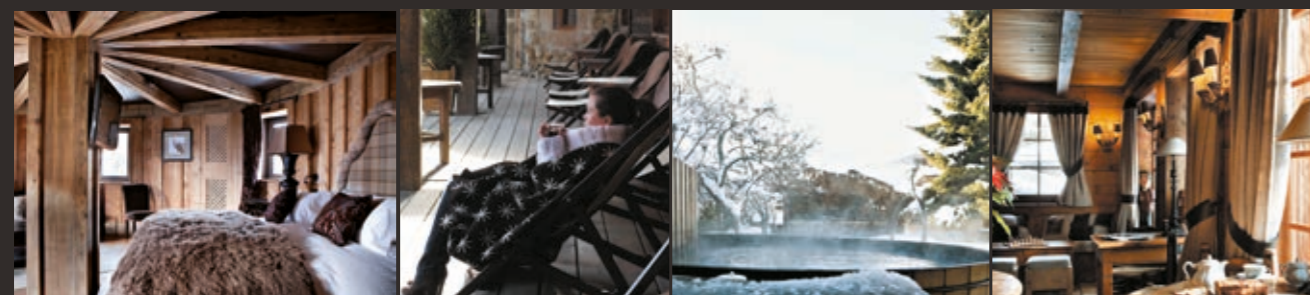

yesteryear around Alpine specialties such as cheese fondue, raclette or the less known pella.. And there is always the dessert trolley, where the indomitable Mont-Blanc gâteau rises proudly between the blueberry tart and the poached vanilla pears.

La Salle à Manger, in turn, spotlights the truffle. Its powerful, unforgettable perfume gives a special magic to our Seine Bay Scallop baked with a fine truffle purée, Brittany turbot studded with truffles, artichokes and anchovies, or suckling calf sweetbreads with shallots reduced in yellow wine dusted with poppy seed... and as a dessert, who can resist the chilled polenta with truffles served with a quince compote?

Les Fermes de Marie's Spa is the very first of the Pure Altitude Spas. Its swimming pool and the 17 treatment cabins provide voluptuous après-ski care, and special "well-being" stays can be organized.

Les Fermes de Marie has come up with an offer entirely designed to delight children:

Le Hameau des Enfants
The "Kid's concierge" organizes great activities for children of all ages to learn and have fun in this magical place.

The Pure Altitude Spa is synonymous with healing. It is an essential component for relieving the stress of urban life. Swimming pool, saunas, Jacuzzis, welcome do the rest to achieve a total recreation of body and mind. The "Vitality programmes" play an important role both in this well-being and in revitalisation: sports activities with a coach, delicious and balanced cuisine, Pure Altitude Spa treatments. In summer, gardens and vegetable plots caress the terraces illuminated of lights and shadows.

To sublimate the unique experiences feelings inhere in Les Fermes de Marie, La Salle à manger, which overlooks the Restaurant Traditionnel, is simply gorgeous. Intimate, the smoker room, away from smells and eyes, opens on club chairs, old spirits. Finally, stopping in one of the rooms or suites, is like plucking the pages of a picture book, awaking the senses, so that the concept of hotel is not just sleeping in anonymity. Furniture, antiqued tastefully, sign the identity of places that are recognisable but not alike any others.

It is rare to find places where the art of living is cultivated with passion, where granting one's wishes is no longer a pious vow, where every moment impacts memory of an indelible Alpine lyricism.

Everything here is written day after day, in an obvious and genuine way.
Stopping here changes the connection to time, the sense of listening and sharing.
